NAMBIAR BUILDERS PVT LTD CASE STUDY

The Company wanted a centralised business processing solution for operations management & customer delight.

ABOUT CLIENT

Nambiar Builders is a real estate company creating exclusive residential communities in Bengaluru. They are a unique blend of impeccable excellence, efficient innovation and sustainable design to build a luxurious experience replete with lush green manicured landscapes, opulent living facilities and a reservoir of hand-picked privileges.

As a real estate company, they have come a long way in a very short period of time, setting new standards in the real estate space. Their portfolio reflects an unmatched dedication to developing premium houses for Bengaluru's changing needs by guaranteeing smart structures that can truly stand the test of time.

Industry: Real Estate
Website: www.nambiarbuilders.com

BUSINESS REQUIREMENT

- Centralized Advanced Business Process Management Platform
- Project budget & progress monitoring
- Compatible with the RERA framework. Financial and project reporting are expected in line with it.
- Detailed customer account online-reporting
- Project budgeting with Multi-level Approval

CHALLENGES FACED

- Change Management - Adoption of the new process
- User Roles & Authorization – Fiori Based

BENEFITS AT A GLANCE
