

Enabling Smart Cities Run Smartly For More Than 10 Years

- 2008: Lavasa: India's 1st Privately Built Smart City
- 2017: AURIC: India's 1st Industrial Smart City
- 2018: Bhubaneswar: India's 1st Ranked Smart City

Smart City Experience

As India's pioneering IT infrastructure service provider, Highbar has actively developed and implemented IT solutions for smart cities for over a decade. Starting with Lavasa City, India's 1st privately built smart city in 2008, Highbar has retained the position of preferred IT implementation partner for smart cities including the two latest smart city projects at AURIC & Bhubaneswar

Aurangabad Industrial Smart City (AURIC):

- India's 1st Industrial Smart City project
- Green field project
- SAP ERP Solution will assist the organization at each stage of city development viz. planning, construction and operation & maintenance
- Help city to manage funds, utilities billing and city infrastructure
- Automated multichannel customer service
